

Electrical Engineer

Scheeser Buckley Mayfield (SBM) is a well-respected regional engineering firm serving clients in Ohio and surrounding states. SBM designs mechanical, electrical, site civil, and technology systems. Areas of specialization include fire protection, forensic, and commissioning services. Since 1959, SBM has provided exceptional engineering by working closely with clients to fully understand their needs. The firm offers innovative solutions in the core markets of health care, education, government, central utility plants, commercial, and religious facilities.

SBM is currently looking for an electrical engineer with a bachelor's degree in engineering or four-year technology degree from accredited engineering program. This position will be responsible for all aspects of electrical building design for commercial, institutional, and light industrial facilities. Design consists of lighting, power distribution (low and medium voltage), and systems including technology, fire alarm, nurse call, etc.

The individual will work closely with other engineers in a team environment. The ideal candidate will have excellent communication and project management skills. Registration is not required, but EIT (Engineer in Training) certification is preferred. Recent graduates are encouraged to submit their resumes, as well as electrical engineers with up to 5 years of experience. This is an excellent opportunity to join a professional team in a growing company.

Our staff consists of 35-40 employees in our Uniontown, Ohio office located between Akron and Canton. SBM's core values are passionate people, collaborative communication, productive problem solving, and exceptional engineering. Our employees are passionate about what they do. Our firm is small enough to offer individualized attention to each client, yet large enough to successfully complete complex, large-scale projects.

Our principals are hands-on, providing mentoring to our less-experienced engineers and offering a wealth of information to our clients. Each of our projects includes principal involvement throughout design.

What does SBM offer?

- Flexible work schedules
- Attractive benefits package
- Pleasant work environment at a location convenient to Akron, Canton, and Cleveland
- Employee and family social events
- Opportunities to be involved with all aspects of projects including concept, design, bid phase and construction phase

Who is SBM seeking?

- Highly motivated, team-oriented electrical engineering professionals
- Candidates interested in providing excellent service to our clients
