At Scheeser Buckley Mayfield, we have earned a strong reputation in the health care market due to the quality of our designs and our attention to ever-changing requirements and regulations. We have developed long-term relationships with our health care clients so that every project we encounter is performed within the context of adjacent projects and infrastructure needs.

► Project Scopes

SBM's health care projects have ranged from minor suite renovations to new bed towers with construction costs in the \$100 million range. The SBM team has likely designed a system similar to the project that you are planning. Projects include:

Ambulatory Care	CT Scanners	MRIs
Assisted/Senior Living	Hospice	Neurology
Behavioral Health	Dialysis Centers	Nurses Stations
Bed Towers	Endoscopy	Operating Rooms
Cath Labs	Emergency Departments	Palliative Care
Cancer Centers/Oncology	Eye Clinics	USP Pharmacies
Central Plants/Equipment	Medical Office Buildings	Wound Care Centers

Hospital, health care, and research facilities typically represent up to 70% of SBM's annual workload. Our engineers keep up to date on the code requirements, technology, and specialized equipment for the market. All of our engineers are ICRA certified and are familiar with the special safety measures required when designing and physically working in patient care areas.

► Clients

SBM has experience with scores of health care systems in Ohio and neighboring states, including:

Aultman Health Foundation	Marshall Health
Cabell Huntington Hospital	Mercy Health
Children's Hospital Medical Center of Akron	New Vista Behavioral Health
Cleveland Clinic Foundation	Rainbow Babies and Children's Hospital
Crystal Clinic Orthopaedic Center	St. Elizabeth Health Center
Department of Veterans Affairs	Summa Health System
Heartland Behavioral Health	University Hospitals
King's Daughters Medical Center	Youngstown Osteopathic Hospital

► Next Steps

SBM is the ideal choice to design the systems for your next health care project. Contact us to discuss how we may assist you. We look forward to being a partner in the growth and development of your facility.
